

In my opinion, Sinclair Broadcasting's decision to require their stations to air the anti-Kerry documentary is a flagrant misuse of the public airwaves. Use of the public airwaves carries with it an obligation to serve the public interest. A one-sided presentation of events for the purpose of influencing voters so close to the presidential election is not serving the public interest. Sinclair Broadcasting is abusing its position to advance a personal agenda. This entire situation clearly demonstrates the danger of media consolidation. Please protect our democracy. Strengthen the media ownership laws. Thank you.
